INDEX OF SUBJECTS

PAGE

ANENCEPHALY, right-sided juxtaposition of the atrial appendages . . . 157
ARTERIES, medial hypertrophy in the small intestinal arteries in systemic hypertension, renal and essential . . 99
AUTOPSY findings in cases with a clinically uncertain cancer diagnosis . . 111

BRADYKININ-induced vascular permeability changes using FITC-Dextran as a tracer: intravital and electron microscopic study 125
BRAIN, distribution of herpes simplex virus in acute necrotising encephalitis . 135
BREAST, CARCINOMA, demonstration of α lactalbumin 37
histological study of intracellular filaments 13

CALCERGY, a comparison of the inhibitory effects of disodium pyrophosphate and disodium ethane-hydroxy-1, 1-diphosphonate on simple calcergy . . 149
CANCER, autopsy findings in cases with a clinically uncertain cancer diagnosis . 111
demonstration of α lactalbumin in human breast carcinomas 37
histological study of intracellular filaments in human cancer cells . 13
review article of carcinoma of the pancreas 203
CANCER, SQUAMOUS, of the colorectum and its genesis 139
CELL KINETICS of a murine malignant lymphoma: effects of dexamethasone on 1
COLON, squamous carcinoma of the colorectum and its genesis . . . 139
COLON, CARCINOMA, intracellular filaments in human cancer cells: a histological study 13
CONGENITAL HEART DISEASE, right-sided juxtaposition of the atrial appendages in an anencephalic 157
CONTRACTILE APPARATUS in murine multinucleate giant cells, detection of . 91

DEXAMETHASONE, effects of the cell kinetics of a murine malignant lymphoma . 1
DEXTRAN used as a tracer to show bradykinin-induced vascular permeability changes: intravital and electron microscopic study 125
DI(2-HYDROXYPROPYL)-NITROSAMINE administered parenterally to male Wistar rats inducing oesophageal neoplasia: combined histopathological, histochemical and electron microscopic study 31
DISODIUM PYROPHOSPHATE and disodium ethane-hydroxy-1, 1-diphosphonate: comparison of the inhibitory effects on simple calcergy 149

ELECTRON MICROSCOPY, TRANSMISSION, bradykinin-induced vascular permeability changes using FITC-Dextran as a tracer 125
cellular response to blood in the vitreous 43
changes induced by oestrogens on the lymph-node post-capillary venules . 21
changes in human oesophageal epithelium in oesophagitis . . . 161
detection of a contractile apparatus in murine multinucleate giant cells . 91
distribution of herpes simplex virus in acute necrotising encephalitis . . 135
experimental granulomatous inflammation induced by injection of tubercule bacilli into Freund adjuvant-sensitised guinea-pigs 191
nature of virus-like particles in the paraxial muscles of idiopathic scoliosis . 9
oesophageal neoplasia in male Wistar rats due to parenteral di(2-hydroxypropyl)-nitrosamine (DHPN) . . 31
squamous carcinoma of the colorectum and its genesis 139
ENCEPHALITIS, acute necrotising, distribution of herpes simplex virus in . . 135
EYE, ultrasonic study of cellular response to blood in the vitreous . . . 43

FILAMENTS, INTRACELLULAR, in human cancer cells: a histological study . 13

GIANT CELLS, detection of a contractile apparatus 91
experimental granulomatous inflammation: ultrastructure of the granuloma induced by injection of tubercle bacilli into Freund adjuvant-sensitised guinea-pigs 191

PAGE

GOLD THIOGLUCOSE action on pericapillary structures in the ventromedial hypothalamus 73
-induced necrosis of the ventromedial hypothalamus: mediation by serotonin 83
GRANULOMA induced by injection of tubercle bacilli into Freund adjuvant-sensitised guinea-pigs: ultrastructural study 191
GUINEA-PIGS, ultrastructural study of experimental granulomatous inflammation 191

HAMSTERS, intravital and electron microscopic study of bradykinin-induced vascular permeability changes using FITC-Dextran as a tracer . . 125
tumorgenicity of Herpesvirus hominis type 2-transformed cells (line 333-8-9) 169
HEART, right-sided juxtaposition of the atrial appendages in an anencephalic. 157
HERPES SIMPLEX virus in acute necrotising encephalitis, distribution of . . 135
HERPES VIRUS hominis type 2-transformed cells (line 333-8-9) in adult hamsters, tumorgenicity of 169
HISTOCHEMISTRY, comparison of the inhibitory effects of disodium pyrophosphate and disodium ethane-hydroxy-1, 1-diphosphonate on simple calcergy . 149
functional assessment of macrophages from osteopetrotic mice 57
immunological study of non-Hodgkin's lymphomas 179
intracellular filaments in human cancer cells 13
oesophageal neoplasia in male Wistar rats due to parenteral di(2-hydroxypropyl)-nitrosamine (DHPN) . . 31
HYPERTENSION, medial hypertrophy in the small intestinal arteries 99
HYPOTHALAMUS, action of gold thioglucose on pericapillary structures . . 73
mediation by serotonin of gold thioglucose-induced necrosis . . . 83

IMMUNOFLUORESCENCE, detection of a contractile apparatus in murine multinucleate giant cells 91
IMMUNOPEROXIDASE TECHNIQUE, demonstration of α lactalbumin in human breast carcinomas 37
study of non-Hodgkin's lymphomas . 179
INFLAMMATION, anti-inflammatory effects of blood platelets in the rat . . 65
electron microscopic changes in human oesophageal epithelium in oesophagitis 161
ultrastructural study of cellular response to blood in the vitreous . . 43
ultrastructure of granuloma induced by injection of tubercle bacilli into Freund adjuvant-sensitised guinea-pigs 191

KIDNEY, medial hypertrophy in the small intestinal arteries in systemic hypertension, renal and essential . . 99

α LACTALBUMIN in human breast carcinomas 37
LYMPH NODES, electron microscopic study of the changes induced by oestrogens on the lymph-node post-capillary venules 21
LYMPHOMA, murine malignant, effects of dexamethasone on the cell kinetics . 1
non-Hodgkin's, immunohistochemical and histological study 179

MACROPHAGES, functional assessment in osteopetrotic mice 57
METALOPHIL STAINING, immunohistochemical and histological study of non-Hodgkin's lymphomas 179
MORPHOMETRY, medial hypertrophy in the small intestinal arteries in systemic hypertension, renal and essential . 99
MOUSE, action of gold thioglucose on pericapillary structures in the ventromedial hypothalamus 73
comparison of the inhibitory effects of disodium pyrophosphate and disodium ethane-hydroxy-1, 1-diphosphonate on simple calcergy 149
detection of a contractile apparatus in multinucleate giant cells 91
effects of dexamethasone on the cell kinetics of a malignant lymphoma . 1
functional assessment of macrophages in osteopetrosis 57
mediation by serotonin of gold thioglucose-induced necrosis of the ventromedial hypothalamus 83
MUSCLE, nature of virus-like particles in the paraxial muscles of idiopathic scoliosis 9

NECROSIS, mediation by serotonin of gold thioglucose-induced necrosis of the ventromedial hypothalamus . . 83
NEUROHYPOPHYSIS, granular-cell pituicytoma of 53

OESOPHAGUS, combined histopathological, histochemical and electron microscopic study of oesophageal neoplasia in male Wistar rats due to parenteral di(2-hydroxypropyl)-nitrosamine . 31
electron microscopic changes in human oesophageal epithelium in oesophagitis 161

PAGE

OESTROGENS, electron microscopic study of the changes induced by oestrogens on the lymph-node post-capillary venules 21
OSTEOPETROSIS in mice, functional assessment of macrophages 57

PANCREAS, review article of carcinoma of . 203
PHAGOCYTOSIS, functional assessment of macrophages from osteopetrotic mice 57
PITUICYTOMA of the neurohypophysis, granular cell type 53
PLATELETS, anti-inflammatory effects of blood platelets in the rat . . . 65

RABBITS, anti-inflammatory effects of blood platelets 65
ultrastructural study of cellular response to blood in the vitreous . . . 43
RATS, female albino Porton Wistar (OLA outbred), used for the study of anti-inflammatory effects of blood platelets 65
oesophageal neoplasia in male Wistar rats due to parenteral di(2-hydroxypropyl)-nitrosamine (DHPN): combined histopathological, histochemical and electron microscopic study . 31
RECTUM, squamous carcinoma of the colorectum and its genesis 139

SCOLIOSIS, idiopathic, nature of virus-like particles in the paraxial muscles . 9
SEROTONIN and hypothalamic necrosis . 83
SMALL INTESTINE, ARTERIES OF, medial hypertrophy in systemic hypertension, renal and essential 99
STOMACH, case of gastric teratoma . . 121

TERATOMA, GASTRIC, in a 3-mth-old boy with macroscopic and microscopic observations 121
TUBERCULOSIS, ultrastructure of granuloma induced by injection of tubercle bacilli into Freund adjuvant-sensitised guinea-pigs 191
TUMOURS, ANIMAL, INDIVIDUAL, combined histopathological, histochemical and electron microscopic study of oesophageal neoplasia due to parenteral di(2 - hydroxypropyl) - nitrosamine (DHPN) 31
effects of dexamethasone on the cell kinetics of a malignant lymphoma . 1
tumorgenicity of Herpesvirus hominis type 2-transformed cells (line 333-8-9) 169
TUMOURS, HUMAN, INDIVIDUAL, autopsy findings in cases with a clinically uncertain cancer diagnosis . . 111
case of gastric teratoma . . . 121
demonstration of α lactalbumin in human breast carcinomas . . 37
granular-cell pituicytoma of the neurohypophysis 53
histological study of intracellular filaments in human cancer cells . . 13
immunohistochemical and histological study of non-Hodgkin's lymphomas . 179
review article on carcinoma of the pancreas 203
squamous carcinoma of the colorectum and its genesis 139

VASCULAR PERMEABILITY, intravital and electron microscopic study of bradykinin-induced vascular permeability changes using FITC-Dextran as a tracer 125
VENTROMEDIAL HYPOTHALAMUS, action of gold thioglucose on pericapillary structures 73
mediation by serotonin of gold thioglucose-induced necrosis . . . 83
VENULES, POST-CAPILLARY, lymph node: electron microscopic study of the changes induced by oestrogens . . 21
VIRUS, HERPES SIMPLEX, distribution in acute necrotising encephalitis . . . 135
tumorgenicity of Herpesvirus hominis type 2-transformed cells (line 333-8-9) in adult hamsters 169
VIRUS-LIKE PARTICLES in the paraxial muscles of idiopathic scoliosis . . 9
VITREOUS, ultrastructural study of cellular response to blood 43
